DISTRICT REPORTS.

8. Market how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity. Number of people under relief and state of food stocks.
11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE

8. Well supplied.
9. *Standing Crops.*—Ragi, avare, togari, groundnut, paddy and sugarcane are fair.
Rain is required for standing crops.
10. Good. Coolies find sufficient labour.
11. Cattle are reported to be generally healthy. Fodder is available.

KOLAR

8. Moderately supplied.
9. *Seeds sown.*—Ragi, avare, thogari, horsegram and groundnut are being sown. Agricultural operations are in progress.
Standing Crops.—Ragi, avare, thogari, horsegram and groundnuts are reported to be fair.
Crops harvested.—Nil.
10. Prospects of the season are reported to be normal. There was good rainfall during the week in all the taluks. Fodder and water are available for cattle.
People and cattle are reported to be generally healthy but for prevalence of small-pox in Kolar and Sidlaghatta Taluks. Preventive measures have been taken to check the spread of the epidemic by the Public Health Department.

TUMKUR

8. Fairly well supplied.
Seeds sown.—Nil.
9. *Standing crops.*—Dry crops such as ragi, avare, groundnut, thogari and jola are reported to be in good condition. The recent rains have eased the situation. Sugarcane crop is also reported to be good.
Crops harvested.—Paddy in Chiknaikanhalli and Kuni-gal Taluks and ragi in Turuvekere Taluk.
10. Fair in general.
Public Health.—Generally good except for outbreak of small-pox in Navile and Yakob Sahab Palya, majara of Huliya village. It is reported that action is being taken to check the spread of the disease.
Cattle are reported to be generally healthy except for Blackquarter in Kodagihalli village, Tumkur Taluk. It is reported that needful action has been taken to check the spread of the disease. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are fairly well supplied in all the taluks of the District during the week.
9. *Seeds sown.*—Sowing operation of ragi, has commenced during the week in the taluks of Chamarajanagar and Gundlupet.
Standing crops.—Standing crops such as paddy, sugarcane, castor, cotton and thogari are reported to be generally in good condition. Jola crop has almost failed as already stated in the previous report.
Crops harvested.—Jola harvest has commenced in parts of Chamarajanagar and Nanjangud Taluks.
- 10 (1) The prospects of the season in the affected taluks of Chamarajanagar and Gundlupet are improving due to recent good rains.
- (2) There was fairly a good rainfall in all the taluks of the District during the week.
- (3) The conditions in the affected taluks show some signs of improvement due to recent rains.
- (4) Cooly classes generally find sufficient labour throughout the District.

(5) Sufficient quantity of foodgrains are made available throughout the District.

11. Cattle are reported to be healthy. Water and fodder are fairly available in all the Taluks of the District due to recent rains.

MANDYA.

8. Well supplied.
9. The standing crops such as ragi and jola are reported to be in good condition after the recent rains. Transplantation of paddy is going on in all parts of the District.
10. Prospects of the season are reported to be fair.
11. Public health is reported to be generally good in all the Taluks in the District. Water and fodder are available in sufficient quantities and cattle are reported to be generally healthy.

HASSAN.

8. Well supplied.
9. Transplantation of paddy is going on in Belur and Alur Taluks; dodda ragi is being sown in parts of Belur Taluk. Standing crops like paddy, ragi, sugarcane and groundnut, in Channarayana Taluk; dodda ragi, paddy and sugarcane in Arkalgud, Alur Hole-Narsipur and Belur Taluks; ragi in Arsikere Taluk and paddy, ragi, sugarcane, potato and groundnut in Hassan Taluk are in good condition.
No crop was harvested during the week.
10. Prospects of the season are quite fair. The recent rains have been beneficial to the crops.
It is reported that there has been an outbreak of Plague in Padumanahalli in Hassan Taluk, in Ramenaballi and Tojur in Arkalgud Taluk and that necessary preventive measures were adopted to check the spread of the disease.
11. Cattle are reported to be generally healthy.
Water and fodder are available.

SHIMOGA.

8. Generally well supplied.
9. 1. Weeding Operation is going on briskly in Shikaripur Taluk.
2. Standing crops of paddy, sugarcane, ragi, jola, groundnut, Horsegram, navane and Sava are reported to be in good condition.
3. Paddy crop in an extent of 500 acres in Sagar Taluk has suffered on account of floods and heavy rains during the first week of June 1950.
10. Prospect of the season is generally good. There was prevalence of small-pox in a village called Bannikodu in Honnali Taluk. Preventive measures are reported to have been taken.
11. Cattle are healthy in all but Sagar Taluk where Rinderpest is prevailing. Amildar, Sagar, reports that preventive measures have been taken and the disease is brought under control. Water and Fodder are available.

CHIKMAGALUR.

8. Markets are well supplied, but the prices of staple commodities are rising high.
9. *Standing crops.*—Paddy, ragi, jola, sugarcane, cotton, avare, groundnut and potato, garlic, onions in Chikmagalur Taluk, sugarcane, mungara jola, avare, coriander, greengram in Kadur Taluk; paddy, ragi, avare, mungarjola, groundnut, til, sugarcane, coriander in Tarikere Taluk, paddy and sugarcane in Koppa Taluk, and Narasimharajapura Sub-Taluk; paddy in Mudigere and Sringeri Sub-Taluks.
- Crops harvested.*—Potato is harvested in Chikmagalur Taluk, and coriander in some parts of Kadur Taluk.
- Transplantation of paddy.*—It is going on throughout the District and it is almost nearing completion. Sowing of hinger ragi, and jola in Kadur Taluk, is in progress. It is reported that the condition of this standing crops are good in all parts of the District. Greengram in Kadur Taluk is, it is reported infested. The rainfall in Sringeri being not much, it facilitated the spraying operations on the koleroga infested area crop. Ragi crop did not come up in some parts of Kadur Taluk on account of the failure of rains. These fields were re-ploughed and ragi plants are being transplanted.
10. Public Health was generally good throughout the District as the Small-pox epidemic has almost abated.

lence of food and mouth disease in Matthawara and Bogase Villages of Chikmagalur Taluk and for the prevalence of Rinderpest in Mudigere Kasaba, Jogannankere and Balur Villages in Mudigere Taluk. The Assistant Director of Animal Husbandry services has reported that necessary preventive measures are being taken. Fodder, water and labour were generally available throughout the District.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore,
Dated 29th August 1950.
4109

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY, THE 17TH AUGUST 1950.

A total of 10 attacks with 6 deaths from Plague was returned from 4 villages, in 4 taluks, in 2 Districts during the week against 4 attacks with 3 deaths in the previous week. Cities of Bangalore, Mysore and Kolar Gold Field Area reported free from Plague. Comparative figures for the corresponding week in 1949 and 1948 were 45 attacks with 33 deaths and 26 attacks with 29 deaths, respectively.

A total of 12 attacks with 4 deaths from Small-pox were reported from Bangalore Corporation, Kolar Gold Fields and Arkalgud, Maddur, Nanjangud, Mudigere, Pavagada and Tarikere Taluks.

Thirty-four attacks with 16 deaths from Cholera were reported from Bangalore Corporation and from Bangalore South, Gundlupet, Koratogere, Molakalmuru and Periyapatna Taluks.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore City amounted to 283 (108 in hospitals) for 7 days representing a calculated death-rate of 29.2 (17.9 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 2 under Small-pox, 3 under Cholera, 1 under Malaria, 5 under Typhoid, 6 under Other Fevers, 41 under Dysentery and Diarrhoea and 225 under all other Causes. The reported mortality was low.

The total mortality for Mysore City was 40 (22 in hospitals) for 4 days representing a calculated death-rate of 19.0 (8.5 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths were: Malaria 2, Typhoid 2, Other Fevers 2, Dysentery and Diarrhoea 2 and all Other Causes 32. The reported mortality was very low.

There were 27 deaths (4 from hospitals) for 5 days from all causes in Kolar Gold Field Area equivalent to a calculated death-rate of 10.9 (9.4 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 2 under other Fevers 9 under Dysentery and Diarrhoea and 16 under All other causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.

**OFFICE OF THE DIRECTOR OF ANIMAL
HUSBANDRY SERVICES IN MYSORE, BANGALORE.**

Notification dated ... August 1950.

(HEALTH OF LIVE-STOCK DURING JULY 1950).

In their order of severity, outbreaks of rinderpest, black-quarter, anthrax, hæmorrhagic-septicaemia, foot and mouth, ranikhet, contagious-goat-pleuro-pneumonia and sheep-pox were encountered in the State during July 1950. Altogether 335 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 315 villages during the previous month. The number of outbreaks was highest in Kolar, Mysore and Bangalore Districts, while Shimoga, Hassan and Chikmagalur Districts were least affected. These diseases accounted for 1,103 attacks, of which 887 succumbed as against 1,284 attacks and 941 deaths during the previous month. The departmental staff conducted 69,950 preventive inoculations and vaccinations against all the above diseases except foot and mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against foot and mouth disease.

As many as 6 outbreaks of rinderpest were registered in Channagiri, Sagar, Davangere and Jagalur Taluks accounting for 26 attacks and 15 deaths. Prompt measures of control were undertaken by the department to check its spread and 15,049 cattle were protected against the disease, both in the infected villages and in their immediate neighbourhood extending over a radius of 3 miles. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 100 villages resulting in 22 deaths, as against 191 villages accounting for 87 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 7,334 animals, as against 10,517 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.

P. M. NARAINSWAMY NAIDU,

Director.
